

# Certificate

The Flat Gasket of Type **NOVUS 34**

of **Novus Sealing Limited,**  
**Hunsworth Lane Cleckheaton, West Yorkshire BD19 3UJ**

was tested according to VDI Guide Line 2440 (Edition November 2000). After 48 hours of ageing at 200°C in air the leakage rate

**$1.3 \cdot 10^{-7}$  mbar l / (s·m)**

meets the requirement

**$1,0 \cdot 10^{-4}$  mbar l / (s·m)** (leakage rate criterion in VDI 2440).

The gasket can be considered to be of **high performance according to TA Luft.**

This Certificate is valid only in connection with our

**Test Report 900 9918 003 Hh/Lor/Gue** dated **September 23. 2005**

and the testing and boundary conditions given in this report.

Stuttgart, September 23. 2005
